Medical Assay Phlebotomy School (MAPS) is dedicated to providing students with quality education and hands-on experience in Health Care Career Industry. The school is affiliated with Medical Assay Laboratory Inc, a laboratory accredited by the Council on Laboratory Accreditation (COLA). MAPS offers a phlebotomy Association or the National Health Career Association.

Program Objectives:

1. To provide students with the training and scientific background needed for effective phlebotomy actions and services.
2. To provide students with the skills to function in a high-stress environment of hospitals, clinics, and reference laboratories.
3. Our program stresses is designed to produce students who could function effectively as traveling phlebotomists, providing services for the homebound patients and the fast-growing home health care industry.
4. The program stresses the importance of continuing education in the field of phlebotomy and the related field of diagnostic testing in order to remain current with the requirements for each laboratory test.

Phlebotomy is a fast-growing career in Health Care:

Program Uniqueness:

Over the years we have recognized that the major flaws of most phlebotomy programs are the lack of adequate training on laboratory testing requirements and minimal hands on experience collecting specimens from patients. Medical Assay Phlebotomy program is unique because we emphasize hands on experience in a variety of settings prior to graduation (e.g., reference laboratory, nursing home, assisted living facility, physician office, home bound patients).

Admission

Admission Requirements:

1. Applicants for admission to MAPS must have either a high school diploma or a G.E.D (General Equivalency Diploma). Students who attended school outside of the U.S. must demonstrate that they possess high-school equivalency certificate.
2. All applicants must test negative for HBSAG (hepatitis), RPR (syphilis), and screened negative for drugs prior to being placed at clinical sites.

Tuition and Fees:

Tuition for the 4 or 5 weeks course is \$700
Books and supplies is \$150.

Space in the program is limited and a \$400 tuition deposit is required before the beginning of class to secure a position.

Schedule:

Medical Assay Phlebotomy School currently offers the following sessions:

5 weeks cohort 1, Saturday and Sunday from 10 a.m. to 12.30 p.m.
Classes begin on March 27, 2010.

5 weeks cohort 2, Tuesday and Thursday from 6 p.m. to 8.30 p.m.
Classes begin on March 30, 2010.

We invite you to become part of a fast-growing phlebotomy career that offers:

1. Phlebotomy Certification.
2. Job opportunities with fast growing health care industry.
3. Good salary.
4. Flexible hours for the traveling phlebotomist.
5. Guaranteed employment unaffected by recession.
